ABOUT MYSELF

With an IT degree, a Master's in Software Development, and over 5 years of experience crafting high-quality Android solutions, I bring a deeply technical yet adaptive approach to engineering. I am an honest, assertive, and fast-learning professional who pairs a results-driven mindset with a focus on shipping reliable software. Currently, I am also exploring AI integration to optimize my workflow and deliver faster, higher-quality results. I thrive in collaborative environments, where I actively work to foster teamwork and maintain a positive, supportive culture. When I'm not coding, I produce music under the alias Kouzen, explore road and off-road motorcycle routes, and fuel my curiosity through sports, reading, and cinema.

WORK EXPERIENCE

TMC España SL - Spain, Valencia

Android developer

[01/04/2025 - 01/06/2026]

Focused on building a newer version of a banking app. Working together with colleagues from several companies, designing, planning, developing, and adding features and upgrades to what was already built. I was able to learn how to upload an app to production through the Play Store console and generate bundles to test in different environments.

Mercadona - Spain, Valencia

Android developer

[01/04/2022 - 01/04/2025]

Android developer with experience across the entire software development lifecycle, from design and coding to testing. I am also actively involved in training and mentoring new team members, as well as coordinating projects with internal clients to ensure the delivery of high-quality software solutions that meet their needs.

RUNE INTELIGENCIA FARMACEUTICA - Spain, Valencia

Full-stack developer

[01/05/2021 - 01/04/2022]

Software developer creating web applications for the pharmaceutical sector, involved in all stages of software development, from web programming and designing to testing and deployment.

Itaca Sabien - Spain, Valencia

Android Developer

[01/01/2019 - 01/01/2020]

Designer and developer of an Android application for the Hospital Universitari i Politècnic La Fe de València. Involved in designing, developing and testing the app from start to finish.

EDUCATION & TRAINING

Master's Degree in the Technology and Engineering of Software Systems

Universitat Politècnica de València [01/09/2019 - 01/09/2020]

City: Valencia | **Country:** Spain

Level in EQF: 7

Degree in Computer Engineering

Universitat Politècnica de València [21/09/2014 - 19/09/2019]

City: Valencia | **Country:** Spain

Level in EQF: 7

LANGUAGE SKILLS

Mother tongue(s): Spanish

English

LISTENING: C1 **READING:** C1 **WRITING:** B2

SPOKEN PRODUCTION: B2

SPOKEN INTERACTION: B2

SKILLS

Soft skills

Communication | Learning Agility | Adaptability | Teamwork | Empathy | Collaboration | Constructive Feedback | Respectful | Time Management | Assertivity | Problem-Solving

Hard skills

Android SDK | Kotlin | UX - UI | Android Jetpack | Kotlin Coroutines | SOLID principles | Git | MVVM | Jetpack Compose | Clean Architecture | Material Design | Room | Retrofit | Firebase | Android Studio | SQLite | Hilt | Unit Testing (JUnit, Mockito, Mockk) | XML | GraphQL | Java | Flutter | Angular | React

HOBBIES AND INTERESTS

Music I have been composing and producing my own tracks and, finally, this year, I made a song available on all platforms. My artist alter ego is Kouzen.

Motorcycle Riding my motorcycle and doing road and off-road routes.
